

# python stuff

- Python 3.x. version doesn't really matter, but 3.7 would be nice.

## Packages

- matplotlib
- numpy
- pandas
- re
- biopython
- (possibly) seaview
- (possibly) scikit learn

## support stuff

- jupyter notebook
- (preferred) jupyter notebook collapsible headings extension
- (possibly) jupyterlab
- textwrangler
- github desktop
- ipython
- markdown (or multimarkdown, preferred)

## systems stuff

- bash

## user stuff

- 24 IDs
- access to jayne
